

Product Name :
Testing Jig for V Pumps on Test Bench

Product Code :
HANDM000A180011

Description :

Testing Jig for V Pumps on Test Bench

Technical Specification :

Testing Jig for V Pumps on Test Bench. Offered range has a user friendly design and long functional life. These testing jigs are highly appreciated by engineers in automobile industry. We manufacture entire range by using reliable quality raw materials procured from leading vendors of market. We test entire range on high parameters for latest industrial norms.

Features:

Sturdy built

Rust free

High impact strength
