

Product Name :
ARC Welding Machine

Product Code :
HANDM000A450002

Description :

ARC Welding Machine

Technical Specification :

Power Source	Electric
Phase	Three Phase
Output Current	100-200 A
Weight	8.5 kg
Voltage	AC415V +/- 15%
Enclosure Protection Class	IP23

We offer advanced technology ARC Welding Machine which is in large requirements in the global markets. These high quality welding machines are designed using quality raw material, which is procured from reliable vendors of the industry. These products are available in market at competitive rates.

Features:

- Application specific design
- Rust resistant body
- Long working life
