

**Product Name :**  
DC Rectifier Welding Machine

**Product Code :**  
HANDM000A450006

**Description :**

DC Rectifier Welding Machine

**Technical Specification :**

Motor Type	DC Motor
Voltage	220 V
Current	400 A
Phase	Single Phase
Usage	Welding and Soldering

We are amongst the reputed organizations, highly engaged in offering an optimum quality range of DC Rectifiers Welding Machine which is widely used for thin sheet welding and capable of producing wave showing welding.

**Features:**

- Portable
- Robust design
- Negligible maintenance
