

**Product Name :**  
MIG - 250 Inventor Type Welding Machine

**Product Code :**  
HANDM000A450010

#### Description :

MIG - 250 Inventor Type Welding Machine

#### Technical Specification :

Output Current	50-250 A
Frequency	50/60 Hz
Efficiency	85
Overall Dimension	58.8 x 31 x 41.5 cm
Quality	370 Pieces (20ft)
Input Voltage	400 V
Rated input power capacity	7.8 KVA
Duty Cycle	60 %
Diameter of wire	0.6/0.8/1.0/1.2 mm
Insulation Class	F
Protection Class	IP21
Type of wire Feeder	Outside
Gross Weight	25 kg

#### Features:

- Suitable for sheet over 0.8 M.M.
- Cost saving and efficiency improving.
- With separated wire feeder, easy and considerable for operation.
- High Welding speed, high arcing success rate.

- Continuous and discontinuous welding function.
- Automatic voltage pulsation compensation capacity.
- Suitable for carbon steel, alloy steel, soft steel etc. and various wire.
- Little spatter, uniform welding pool, good welding shape.
