Product description: Promotional cheap small garden shovel

Product packaging: customized

Printing on products: Support printing according to customer design

Color selection: can be printed as customer Pantone color number

Sampling time: 3 working days

Production time: 35 working days after order confirmation

Product Feature

Closed design and ribs provide additional support.

The head of high carbon steel paint round shovel adopts a closed back design to eliminate debris accumulation, and has welded ribs to provide additional support.

Welded I-beam supports and real 14 gauge steel

Welded I-beam supports provide excellent durability and a step forward design for better control.

Single piece ferrule, no seams

The disposable ferrule design prevents penetration and separation from the handle.
