Different Types of Rake

Technical Specification :

The traditional farming tools used in agricultural production were once one of the must-have farming tools for farmers. It is also one of Chinese martial arts equipment, evolved from farm tools. The iron-toothed nail rake, the rake teeth are sharp like nails, strong offensive, and also have the role of a weapon. Because the rake can hit and rake, it once became one of the most advantageous weapons in the army. The rake attack methods include "push and pull", "flat body kill", "reverse hit", "large oblique pressure", etc.; defense methods include "rally fight against reveal", "straight up knock", "flat body block", etc. . Martial arts single training routines include "nine-tooth nail rake" and "lotus leaf rake"; dual exercises include "rake into the spear" and "rake sword card" and so on.

Durable plastic makes it strong and durable

The handle is made of wood to provide durability and prevent wear.

Excellent leaf rake and general lawn care.
